

TC MANAGE™

Intelligence-Driven Orchestration

Fuse Threat Intelligence and Orchestration

Unlike typical orchestration tools, TC Manage™ is built on the ThreatConnect Platform – giving you not only the ability to orchestrate your security functions, but also the confidence that you are basing your tasks and decisions on vetted, relevant threat intelligence. Automate part or all of your processes for managing threat data, including sending indicators to your defensive tools for alerting or blocking, or looping in one of your team member's tasks. Having your aggregated and enriched data in the same place as your orchestration capabilities allows you to be more focused and effective in your response to threats – all without having to expand your team or buy more tools.

MAXIMIZE EFFICIENCY

Automate tasks and spend time on what matters

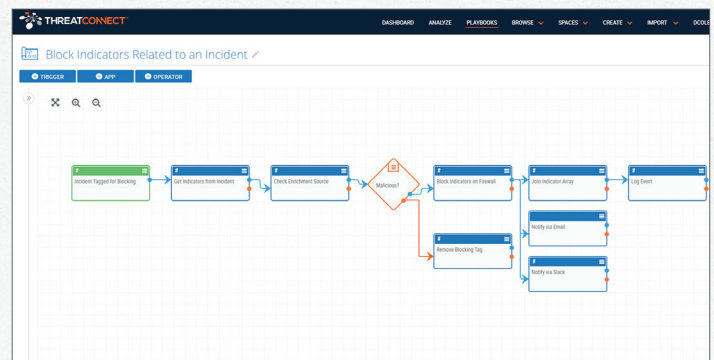

- Use ThreatConnect's easy drag-and-drop interface – no coding needed
- Automate nearly any security operation or task, such as sending alerts, enriching data, or assigning tasks to your team
- Time consuming tasks are reduced from hours or days to seconds

AUTOMATION + HUMAN INTERVENTION

Create customizable playbooks

- Build 'Playbooks' – automated chains of events triggered by an event in your network
- Use built-in tasks to loop your team in at critical decision points
- Choose from ThreatConnect-provided Playbook templates or build your own
- Chronicle your processes so you can look at them strategically

UNITE YOUR TOOLS

Easily send & receive data from your security tools

- Ingest data from any tool (including tools we don't yet integrate with)
- Easily send indicators to any of ThreatConnect's 100+ integration partners including firewalls, SIEMs, and more
- Automatically enrich your data using multiple third party tools

WHY THREATCONNECT?

Find Threats, Evaluate Risk, and Mitigate Harm to Your Organization

The ThreatConnect Platform was specifically designed to help you understand adversaries, automate workflows, and mitigate threats faster using threat intelligence. But we know security operations and threat intelligence are not one size fits all. That's why we offer a suite of products designed for teams of all sizes and maturity levels. And because each of our products is built on our Platform, ThreatConnect will adapt with your organization as it grows and changes.

About ThreatConnect®

ThreatConnect arms organizations with a powerful defense against cyber threats and the confidence to make strategic business decisions. Built on the industry's only intelligence-driven, extensible security platform, ThreatConnect provides a suite of products designed to meet the threat intelligence aggregation, analysis and automation needs of security teams at any maturity level. More than 1,600 companies and agencies worldwide deploy the ThreatConnect platform to fully integrate their security technologies, teams, and processes with relevant threat intelligence resulting in reduced detection to response time and enhanced asset protection.
